

Surf Air Mobility Enters Agreement to Supply Electric Powertrains to Tanzanian Cessna Caravan Operator Auric Air

Auric Air to upgrade up to 12 of their Cessna Grand Caravan fleet with Surf Air's electrified powertrains to lower emissions and reduce direct operating costs.

LOS ANGELES — March 22, 2024 — Surf Air Mobility Inc. (NYSE: SRFM) (“Surf Air Mobility”, “Surf Air”), a leading regional air mobility platform, has entered into a memorandum of understanding with Auric Air Services Ltd. (“Auric Air”), a Tanzania-based regional air operator flying both scheduled and charter service across East Africa, to upgrade up to 12 of Auric Air’s Cessna Grand Caravan aircraft with Surf Air’s proprietary electrified powertrain technology once certified.

Surf Air now has approximately 13% of the Cessna Caravan market in Africa under agreement to upgrade to its electrified powertrains, once certified.

Surf Air is developing Supplemental Type Certifications for both hybrid and fully-electric variants of the Cessna Grand Caravan. With target reductions of up to 50% direct operating costs and 100% in carbon emissions for the fully-electric powertrain, Surf Air believes the impact for other air operators around the world will be profound as the cost and environmental impact of flying is significantly reduced.

“It’s exciting to have Auric Air share our mission of reducing emissions through electrified aircraft,” said Stan Little, CEO of Surf Air Mobility. “Auric Air’s commitment secures their preferred delivery positions to upgrade their aircraft to our electrified powertrains once the technology is certified.”

Surf Air recently announced similar electrified powertrain agreements with other large Cessna Caravan air operators including Safarilink, Yellow Wings, and Z.Boskovic in East Africa, and Azul Connecta in Brazil.

About Surf Air Mobility

Surf Air Mobility, headquartered in Los Angeles, is a pioneering regional air mobility platform dedicated to transforming regional air travel through electrification. As the largest commuter airline operator in the US, Surf Air Mobility partners with commercial leaders to develop innovative powertrain technology for smaller aircraft, facilitating the electrification of existing fleets and the widespread adoption of electric aircraft. The company's mission is to drive substantial cost reductions and environmental benefits to make regional flying more accessible and affordable. Backed by a management team with extensive expertise spanning aviation, electrification, and consumer technology, Surf Air Mobility is poised to advance the future of sustainable air travel.

About Auric Air

Auric Air Services Ltd is a premier safari airline connecting the most captivating destinations across East Africa, allowing travelers to embark on unforgettable safari adventures. Auric Air makes it easy to experience the awe-inspiring gorillas of Rwanda and Uganda, the majestic Serengeti plains, the iconic Maasai Mara in Kenya, the rugged beauty of Ruaha National Park, the exotic Spice Island of Zanzibar, and more. The company offers seamless connections to ensure travelers experience the wonders of nature like never before. Auric Air offers an extraordinary safari experience through East Africa's most enchanting destinations.

variations of them or similar terminology. Factors that may cause actual results to differ materially from current expectations include, but are not limited to: Surf Air Mobility's limited operating history and that Surf Air Mobility has not yet manufactured any hybrid-electric or fully-electric aircraft; the powertrain technology Surf Air Mobility plans to develop does not yet exist; any accidents or incidents involving hybrid-electric or fully-electric aircraft; the inability to accurately forecast demand for products and manage product inventory in an effective and efficient manner; the dependence on third-party partners and suppliers for the components and collaboration in Surf Air Mobility's development of hybrid-electric and fully-electric powertrains, and any interruptions, disagreements or delays with those partners and suppliers; the inability to execute business objectives and growth strategies successfully or sustain Surf Air Mobility's growth; the inability of Surf Air Mobility to obtain additional financing or access the capital markets to fund its ongoing operations on acceptable terms and conditions; changes in applicable laws or regulations, and the impact of the regulatory environment and complexities with compliance related to such environment. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking statements. Although Surf Air Mobility believes that the expectations reflected in the forward-looking statements are reasonable, there can be no assurance that such expectations will prove to be correct. Surf Air Mobility cannot guarantee future results, level of activity, performance or achievements and there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking statements and financial projections. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Surf Air Mobility does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. Additional information regarding these and other factors that could affect Surf Air Mobility's results is included in Surf Air Mobility's SEC filings, which may be obtained by visiting the SEC's website at www.sec.gov or the investor relations page at <https://investors.surfair.com> under the "Financials—SEC Filings" section.
